

CLINICAL INFORMATICS & PATIENT-CENTERED TECHNOLOGIES

FULL-TIME TRACK

FULL-TIME COURSE SCHEDULE: YEAR 1

AUTUMN	WINTER	SPRING	SUMMER
NMETH 523 (3) Project Management and Systems Analysis for Health Informatics	NMETH 524 (3) Healthcare Information Systems and the EHR	NMETH 520 (5) Scholarly Inquiry for Clinical Informatics Practice	NMETH 530 (3) Scholarly Proposal Development
NMETH 527 (3) Introduction to Clinical Informatics	NMETH 528 (3) Computing Fundamentals for Health Professionals	NMETH 526 (3) Patient-Centered Technologies	NSG 540 (4) Telehealth
NURS 524 (4) Conceptual Foundations for Healthcare Systems: Organizational Structure and Effectiveness	NURS 525 (5) Managing Quality Improvement, Access and Utilization	NMETH 529 (3) Database Concepts and Application in Clinical Informatics	
Total Credits: 10	Total Credits: 11	Total Credits: 11	Total Credits: 7

FULL-TIME COURSE SCHEDULE: YEAR 2

AUTUMN
Scholarly Project (3-6)*

**Requires 3-6 credits total. May be completed in one or more quarters. Length of time varies based on project topic. Curriculum and scheduling are subject to change.*

Course Delivery

The UW's Clinical Informatics and Patient-Centered Technologies (CIPCT) Master of Science degree is a fully online program. Courses utilize live web conferencing, discussion boards, chat rooms, voice-annotated presentations, video lectures, and online office hours to deliver course content and connect with students.

CIPCT Annual Meeting

All students are encouraged to attend a 1-2 day Annual Meeting in Seattle for orientation to the program (new students) and updates (returning students). This meeting includes guest lectures, introductions to faculty members, presentations of scholarly projects, and training on distance learning technologies.
